

Mount Martin Trail ☀️

Length:

📍 5 km

Difficulty:

● ● ● ● ○

The Mount Martin Trail is an unmaintained, generally unmarked and often difficult to follow trail. From time-to-time, there are informal local efforts to clear and re-mark the route. Hikers are advise to attempt it for the first time only with someone familiar with the trail. The view from the top is at 400 M high, great and well worth the effort of clambering up the rocks to get to the top.

Activities

Route

Canoe: 3 km

Hike : 2 km
